Precision b.v.

Comfort Marker 2.0 A Next Generation Solution

Coming
in 2019!

In 2017, Medical Precision b.v. presented the revolutionary MPV-16 system, offering a method for placing patient marks for radiotherapy.

In 2019, Medical Precision b.v. and CIVCO Radiotherapy will bring a new generation radiotherapy marker to the market that will bring more efficiency, patient comfort and safety to both patients and therapists.

- No more pain for the patient
- Removable (if not fading away by itself) after treatment is complete
- Accurate and electronic control of pigmentation depth settings
- Fast, clean and disposable needle module eliminates risk of sticking incidents
- Safe and simple operation with mistake-proof indication of depth settings
- No plugin required allowing portability in the CT room

Contact your sales representative to learn about this exciting technology from CIVCO Radiotherapy and Medical Precision b.v.

Comfort Marker 2.0 is currently not available for sale.
